

Agnes Cwieneczek

Head of Product Management and
Consulting, Amplexor Life Sciences

Agnes has been in the position of ALSS Head of Product Management and Consulting since May 2017. Her main responsibilities are the contribution to the development and enhancement of the Amplexor Life Sciences Suite, supervision of the Life Sciences Consultants as well as the provision of business process and data management expertise to Amplexor clients in Regulatory Information Management, Document Management, and Submission Management.

Before joining Amplexor, Agnes worked at Merck KGaA in Global Regulatory and Quality Assurance, where she was acting System and Process Owner for all regulatory owned systems, providing global leadership for the management of submission documents, regulatory data and archiving within the Merck Biopharma organization.
