

Dr. Henrike Miess

Senior Manager Regulatory Affairs
at Woerwag Pharma

After finishing my PhD in pharmaceutical science, I started a trainee program in the Regulatory Affairs Department at Wörwag Pharma, identifying my passion for CMC and digitalisation.

After being a CMC Manager for 2 years, I decided to join the Regulatory Operations Team to follow the digitalisation path, where I can now focus on preparation of submissions, publishing, Data Integrity, process optimisation and possibilities to increase efficiency.
