Gary Wilson

Managing Director & Co-Founder of CorrIT and creator of the SPORIFY web application

Gary is Managing Director & Co-Founder of CorrIT and creator of the SPORIFY web application. Gary holds a BSc (Hons) in Computer Science and has over 18 years industry and consultancy experience. Since the launch of SPORIFY in 2017, CorrIT have assisted many organisations and regulators with their implementation and integration of SPOR Master Data Services as they move towards IDMP in Europe and has a sharp focus on a data first approach with global reference data management and interoperability of systems. Gary is a member of the SPOR Key Use Group and IDMP inter-association group.
