

Remco Munnik

Director at Iperion

Remco Munnik is a Director at Iperion, a Deloitte company. He has more than 20 years' experience in Life Science and Regulatory Affairs, including more than a decade providing consultancy around Regulatory Information Management (RIM) and electronic submissions. He is a respected subject matter expert in RIM, eCTD, xEVMPD and ISO IDMP.

Remco is also an active member of EMA ISO IDMP Task Force Organizations and Products; Chair of Medicines for Europe Telematics group; and Vice-President of the IRISS Forum, a global, open, multidisciplinary, non-profit networking organisation for life science professionals by life science professionals. One of Iperion's widely-acknowledged strengths is its deep networking with stakeholders across life sciences – including regulators, software vendors and customer groups.
